

2009 NATIONAL SHORT SHEET

Imperial Palace Hotel & Casino, Las Vegas, Nevada

February 5 - 7, 2009

Submitted by Dawn Tanner, National QMA Secretary

Based on the outcome of the voting of the RCPs and motions from the floor, the following is being distributed to the general membership of QMA to be **effective April 1, 2009 unless otherwise noted**. If any member has specific questions regarding the process, they must **first** contact their Club President and if necessary then their Regional Director who will then contact a National Board of Director member. All regions were represented at the meeting. The approved changes are listed below with any addendums or motions to clarify wording included.

Rule Change Proposals (RCPs) and any changes from the annual meeting are to be incorporated into the existing QMA Racing Rules and Administrative Guidelines.

RCP CHANGES:

RCP #2 – Page 23 Article 5 Sec. 1 1H. In order to run 160, MOD, B, AA or WF a driver must run one 12 month period upon graduation from the novice class, in a lower class or combination of lower classes or obtain the unanimous approval of the Novice Committee with the final approval from your Regional Director before competing in these classes. In addition, you must be the appropriate age to run these classes before competing. ADDED MOD and removed the wording, “not including novice year”.

RCP #4 - If a car from the original line-up is officially disqualified or scratched prior to warm-up for any reason by the handler, the alternate car will be allowed to enter the track and participate in warm-up. Cars not going through the safety check from the pit stewards prior to the start of warm-up will not be allowed to enter the track and race.

RCP #11 –Under existing rule 4B Minimum of one practice session for Novice at Grands.

RCP #12 – Drivers of “AA” and half midgets using alcohol are required to wear an SFI 3.3 rated head sock under their helmet.

RCP #13 – Shoulder belts must not be retained by shoulder loops or epaulettes on driver suit.

RCP #20 – Honda 120 & Honda 160 engines may be claimed for \$600 cash only.

RCP #31 – World Formula to run as is in 2009 with the addition of an exhibition Light World Formula class beginning August 15, 2009. Light class to have a minimum weight of 275 lbs. car and driver combined and a maximum weight of 300 lbs car and driver combined. Exhibition races to be run at the local club level only and not at a Regional or Grands Level. Some type of speed control to be implemented by National Tech Advisory Committee as needed for observation and determination of rules to be implemented as an Official QMA Competitive class as of 1/1/10 with separately defined light and heavy weight divisions including driver weights.

SAFETY ISSUES

- **National Safety Inspections** – RESCINDED and will not be implemented as per the 2008 Short Sheet.
- **Soft Wall specifications** – Specifications were written and have been posted on the QMA website **effective 1/1/09**.
- **Helmets** – New CMR2007 added to the approved helmets. No external decorative covering allowed on helmets or face shields. (Example: Skull Skins or similar products). This does not preclude paint or vinyl graphics as long as they do not cover the face shield.
- **Seatbelts** - Rotary Cam Lock device seatbelts are not allowed. Must use latch & link buckle style, **effective 1/1/10**
- **Seatbelt Location** – Seatbelts are not allowed to pass through the firewall.
- **Roll Cage Extensions** – No bolt on halo extension bars are allowed above roll cage. Welded on extensions or “halo” bars that are added above the original roll cage top may not be used as the measurement point for the helmet clearance requirement of 1”.
- **Battery/Electronics** – Battery and electronic ignition equipment is not allowed on or in cars running in the Honda or World Formula classes.
- **Mainframe Rails Clarification** – The mainframe rails on a quarter midget are considered to be a straight and parallel line from front to rear of the car.
- **Hot chute safety** – It is recommended that lifting the car up onto front bumper in the hot chute not be permitted.
- **New Car Construction Approval Process** – Procedures have been put together and are available on-line.
- **Novice Kill Switch (ignition)** – It is **mandatory** that a novice kill switch be mounted on top of the car and it is recommended that it be mounted on the right side.
- **Liberation of fluids** – Add: under yellow or red flag conditions onto the track, without being repaired before returning to the track, DQ (Race Director Only).
- **REMINDER: Effective 1/1/09** per 2008 Short Sheet – All cars must be down tube style frame.

TECH ISSUES

Honda 120
